Letters to The Editor

Unilever's *Fluorescers* (Gordon Van Praagh). Jul p62

REMINDER

This Index completes Vol. 25 of FILM USER and, as there will be no list of film releases, cassette films and filmstrips which has previously appeared in January issues each year, is the last reader service which will be available.

In January 1972 FILM USER will be replaced by AUDIO VISUAL – a monthly journal with a much wider circulation and more diverse interests, although film reviews, general and specialised news as well as equipment and material notes will still be included.

On pages 10 and 18 of this December issue there are announcements about AUDIO VISUAL. Present readers are invited to use the enquiry forms and to draw the attention of their colleagues to the new journal. In view of the nearness of the date of publication such enquiries should be made as soon as possible in order to avoid disappointment about missing the first issue.
